

Geneva Hutcheson

Geneva Hutcheson was born to Archie and Goldie Johnson on March 3, 1928. She was the middle sibling of their three children, with Frank being the older brother and Imagene the younger sister.

Shortly after the end of the second world war, her dreamboat, James Hutcheson, returned home from Japan. They were married soon after and started their life together.

During her 94 years of life, she witnessed a great many events. She experienced the hardship of the Great Depression firsthand. Struggled with the nation during World War 2, as loved ones marched off to war and the rationing of supplies had everyone tightening their belt. Marveled as the country grew into prosperity, created great works, and advanced in the sciences. All the while raising a family with her beloved husband.

She was a strong woman, very loyal and loving to her family, with a firm devotion to God. She was a wonderful wife to her husband, as well as a loving mother, grandmother, and great-grandmother. She passed away on September 14, 2022, survived by her daughter, son-in-law, grandson, granddaughter-in-

law, and her great grandchildren. She returns to the embrace of her husband and other loved ones lost along life's journey.
